DAFTAR TABEL .......................................................................................................... xii
DAFTAR GAMBAR ..................................................................................................... xiii

BAB I PENDAHULUAN ............................................................................................. 1
  1.1. Latar Belakang ..................................................................................................... 1
  1.2. Rumusan Masalah ............................................................................................ 2
  1.3. Ruang Lingkup ................................................................................................... 2
  1.4. Tujuan Penelitian ............................................................................................. 3
  1.5. Manfaat Penelitian .......................................................................................... 3
  1.6. Sistematika Penulisan ...................................................................................... 4

BAB II TINJAUAN PUSTAKA DAN DASAR TEORI .............................................. 5
  2.1. Tinjauan Pustaka .............................................................................................. 5
  2.2. Dasar Teori ....................................................................................................... 6
    2.2.1. Barcode ....................................................................................................... 6
    2.2.2. Java ............................................................................................................ 8
2.2.3. MySql................................................................. 8
2.2.4. Netbeans.............................................................. 9
2.2.5. Aplikasi Kamera pada Android .................................. 9
2.2.6. Konsep Web Service................................................. 11

BAB III ANALISIS DAN PERANCANGAN SISTEM....................... 13

3.1. Analisis Kebutuhan ..................................................... 13
  3.3.1 Perangkat Keras .................................................. 13
  3.4.1 Perangkat Lunak.................................................. 13
  3.5.1 Kebutuhan Masukan............................................... 14
  3.6.1 Kebutuhan Proses................................................ 14
  3.7.1 Kebutuhan Keluaran............................................... 14
  3.8.1 Gambaran Umum Membuat QR Code ......................... 15
  3.9.1 Ikhtisar Pola Fungsi ............................................. 15

3.2. Perancangan Sistem................................................... 16
  3.2.1 Use Case Diagram............................................... 17
  3.2.2 Class Diagram.................................................. 18
  3.2.3 Sequence Diagram Admin.................................... 20
  3.2.4 Sequence Diagram Karyawan................................. 21
  3.2.5 Activity Diagram Karyawan................................. 22
  3.2.6 Activity Diagram Admin.................................... 23

3.3 Rancangan Struktur Tabel............................................. 24
  3.3.1 Tabel Karyawan .................................................. 24
  3.3.2 Tabel Presensi .................................................. 24
  3.3.3 Tabel Laporan .................................................. 25
  3.3.4 Tabel Grafik .................................................... 25
  3.3.5 Tabel Admin .................................................... 26
  3.3.6 Tabel Barcode .................................................. 26

3.4 Perancangan Antarmuka ............................................. 26
  3.4.1 Halaman Form Presensi ........................................ 26
  3.4.2 Halaman Input Data Karyawan ................................ 28
3.4.3 Halaman Melihat Data Presensi Karyawan.......................... 28
3.4.4 Halaman Laporan Karyawan........................................... 29
3.4.5 Halaman Pembuatan QR Code............................................ 30

BAB IV IMPLEMENTASI DAN PEMBAHASAN SISTEM .................. 31

4.1 Implementasi Sistem.......................................................... 31
  4.1.1 Tambah dan Ubah Presensi.............................................. 31
  4.1.2 Menampilkan Grafik ....................................................... 32
  4.1.3 Laporan Presensi karyawan.............................................. 33
  4.1.4 Jumlah Kerja ................................................................. 34
  4.1.5 QR Code Generator Metrix ............................................. 34
  4.1.6 Menampilkan Data Presensi Karyawan............................ 35
  4.1.7 Menampilkan Data Karyawan.......................................... 36
  4.1.8 Scanner Android........................................................... 37
  4.1.9 Pengiriman Data Web Service ........................................ 38
  4.1.10 Struktur Database MySql.............................................. 40

4.2 Pembahasan Sistem ................................................................ 40
  4.2.1 Halaman Pembuatan Qr Code........................................... 41
  4.2.2 Halaman Utama Admin..................................................... 42
  4.2.3 Halaman Presensi Karyawan.............................................. 43
  4.2.4 Halaman Input Data Karyawan ........................................ 44
  4.2.5 Halaman Lihat Data Presensi Karyawan............................ 45
  4.2.6 Halaman Data Karyawan................................................... 46
  4.2.7 Halaman Data Presensi Karyawan...................................... 47
  4.2.8 Laporan Presensi Karyawan.............................................. 48

BAB V PENUTUP ........................................................................ 49

  5.1 Kesimpulan........................................................................... 49
  5.2 Saran..................................................................................... 49
