HALAMAN JUDUL ............................................................................................................. i

HALAMAN PERSETUJUAN.......................................................................................... ii

HALAMAN PENGESAHAN......................................................................................... iii

HALAMAN PERSEMBAHAN DAN MOTTO......................................................... iv

KATA PENGANTAR..................................................................................................... v

INTISARI...................................................................................................................... vii

DAFTAR ISI.................................................................................................................. viii

DAFTAR GAMBAR...................................................................................................... xii

BAB I PENDAHULUAN ......................................................................................... 1

1.1 Latar Belakang Masalah...................................................................................... 1

1.2 Rumusan Masalah............................................................................................. 3

1.3 Ruang Lingkup.................................................................................................. 4

1.4 Tujuan Penelitian............................................................................................. 4

BAB II TINJAUN PUSTAKA DAN DASAR TEORI ...................................... 5

2.1 Tinjaun Pustaka................................................................................................. 5

2.2 Dasar Teori...................................................................................................... 6

2.2.1 Pembelajaran Interaktif ............................................................................. 6
BAB III ANALISIS DAN PERANCANGAN SISTEM ...............13

3.1 Analisis Sistem ......................................................... 13

3.1.1 Perangkat keras ......................................................13

3.1.2 Perangkat Lunak .....................................................13

3.1.3 Input ................................................................. 14

3.1.4 Output ................................................................ 14

3.2 Perancangan Sistem .....................................................14

3.2.1 Pemodelan yang digunakan .......................................14

3.2.2 Rancangan Antarmuka .............................................17

BAB IV IMPLEMENTASI DAN PEMBAHASAN SISTEM ............21

1.1 Implementasi Sistem ......................................................21

1.1.1 Action Scribe untuk menu Beranda ............................ 21

1.1.2 Action Scribe untuk menu pilihan Doa ........................21
1.1.3 Action Scripe untuk menu Profil ........................................... 22
1.1.4 Action Scripe untuk menu Tutorial ........................................ 22
1.1.5 Action Scripe untuk menu Kuis ............................................. 22
1.1.6 Action Scripe untuk menu Frame .......................................... 23
1.1.7 Action Scripe untuk menu kembali ke pilih Doa ................. 23
1.1.8 Action Scripe untuk menu merandom Kuis ..................... 23
1.1.9 Action Scripe untuk Waktu .................................................. 24
1.1.10 Action Scripe untuk Abjad Salah ....................................... 25
1.1.11 Action Scripe untuk Abjad Benar ...................................... 26
1.1.12 Action Scripe untuk Nilai Skor .......................................... 26

4.2 Pembahasan Sistem ........................................................................ 27
4.2.1 Tampilan Beranda ................................................................. 28
4.2.2 Tampilan menu pilihan Doa .................................................. 28
4.2.3 Tampilan menu Doa ............................................................... 29
4.2.4 Tampilan menu Profil ........................................................... 30
4.2.5 Tampilan menu Tutorial ....................................................... 30
4.2.6 Tampilan menu Kuis ............................................................... 31

BAB V KESIMPULAN DAN SARAN ............................................... 32

5.1 Kesimpulan .................................................................................. 32
