ABSTRACT

This minithesis discusses the VALUE of DATA PROCESSING SYSTEM for the STUDENTS of SMK AL FURQON BONDOWOSO USING YII FRAMEWORK. This application essentially serves to simplify the process of data processing values/raport students, and also convey information to the entire party associated with SMK Al-Furqon. With this process expected results obtained will be faster, precise, and accurate.

This system is useful to help process data the value of students with a system that is already computerised.

Keywords: *Data processing, Report, Yii Framework*
