

CARA MENJALANKAN PROGRAM

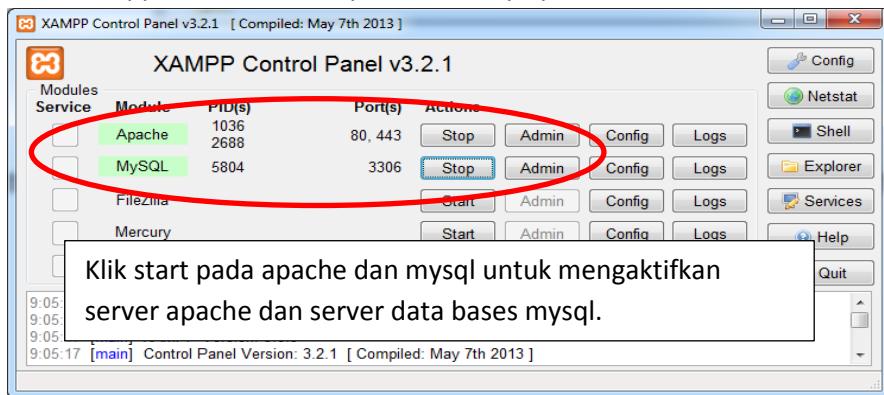

1. Instal xampp ke komputer
2. Copy folder vison ke yang berisi program php ke dalam folder c:\xampp\htdocs

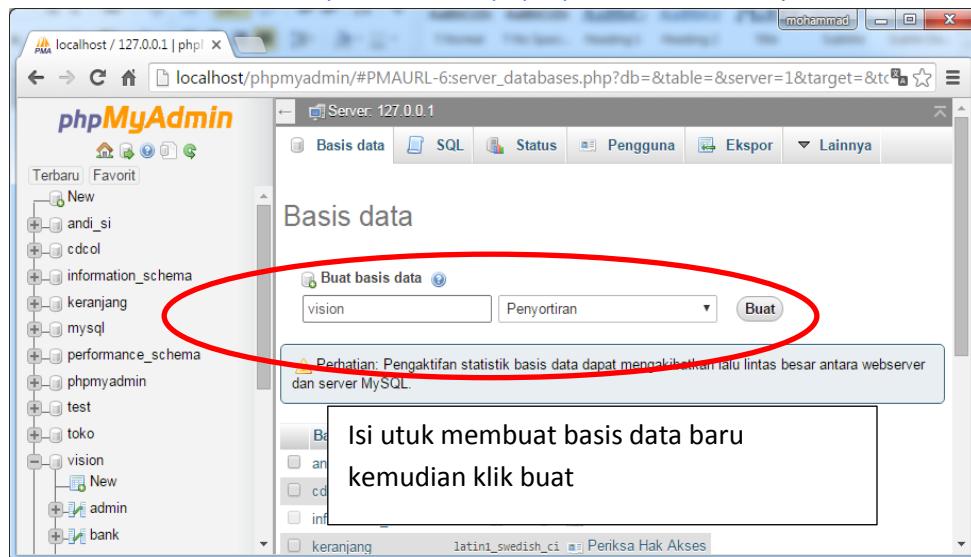

3. Import data base dari folder sourcecode\data bases dengan cara berikut :

- Buka Xampp kemudia start apache dan MySql

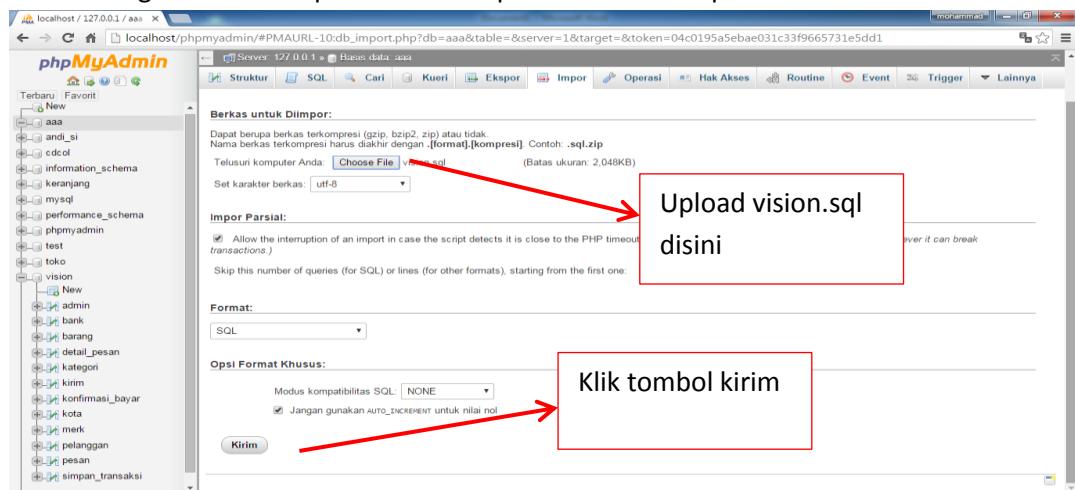

- Buka browser ketik url: <http://localhost/phpmyadmin/> lihat tampilan berikut :

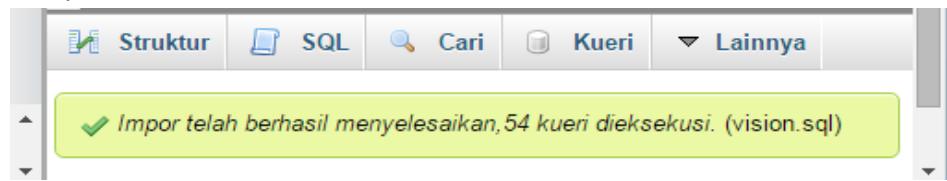

Klik tab basis data kemudian buat data base baru. Masukan nama data bases kemudian klik buat

- Setelah database dibuat selanjutnya import vasion.sql kedalam data bases yang pernah dibuat dengan cara klik import kemudia upload file vision.sql kemudia klik tombol kirim

Jika terdapat tampilan seperti dibawah ini berti data bases berhasil di import ke dalam server MySQL.

4. Setelah data base berhasil di import selanjutnya kita jalankan program dengan cara ketik url <http://localhost/vision/>

A screenshot of a web browser displaying the 'Vision Sport' website. The URL in the address bar is 'localhost/vision/'. The page features a large banner with the text 'ACTION WITH PRECISION' and an image of several soccer balls and shoes. To the right of the banner, there is a logo for 'SWERVO CRIDOLLO IN' with 'with VERTECS' and 'VRFC' below it. Below the banner, there is a navigation menu with links to 'Beranda', 'Produk', 'Cara Pembelian', 'Masuk', and 'Kontak Kami'. On the left side, there is a sidebar with a green header 'Kategori' and a black footer 'SEPAK BOLA'. The main content area has a heading 'Selamat Datang Di Vision Football n' Futsal' and a small text about selling original products at low prices.

Program berhasil dijalankan.
