

Cara Menjalankan Program

1. Siapkan PC/Laptop
2. Install chrome/firefox
3. Install aplikasi notepad++
4. Install xamp sebagai database
5. Aktifkan xamp pada pengaturan yaitu buka C/xamp/pilih camp control kemudian pilih start
6. Kemudian ketikan pada browser localhost/phpmyadmin
7. Buat database pada localhost,jika sudah mempunyai database tinggal di import ke dalam phpmyadmin pada xampp

Halaman Login

The image shows a screenshot of a web-based login form. At the top center, the text "Halaman Login" is displayed in red. Below it, a light gray header bar contains the text "Masukkan Username dan Password". The main form area has two input fields: the first is labeled "Your Username" and the second is labeled "Your Password", both preceded by small icon inputs (a keyhole for username and a lock for password). At the bottom left of the form is a blue rectangular button labeled "Login".

Halaman Utama

The screenshot shows a web application interface. On the left is a vertical sidebar with a red header containing the text "Kepegawaian". Below this, there is a list of menu items: "Beranda", "Data Pegawai", "Data Jabatan", "Data Mutasi", "Data Pensiunan", and "Data Cuti". To the right of the sidebar is a main content area. At the top of this area, there is a dark grey header bar with a "Logout" button on the right side. The main content area contains the following text centered: "PENGOLAHAN DATA PEGAWAI DI BADAN PENDAPATAN DAERAH", "KABUPATEN DOMPU PROVINSI NUSA TENGGARA BARAT", and "BERBASIS WEB".
